

# FILMPACK - VER4

Created by Daniel Alexander Films

The enclosed contracts have been especially designed to legally protect you for a variety of creative productions. They have been adapted for both 'Microsoft Word' and 'Apple Pages' so that they can be amended to suit your project.

Please note that anything written in **RED** requires you to replace and enter the relevant information.

All the contracts have been written to industry standard and checked by legal professionals. Please read them carefully before use to ensure you are able to commit to anything stated within them. If you find yourself unable to commit to any of the elements, or some of the elements are not relevant to your particular production, then it will usually be the case of simply deleting that section or amending it to fit within your requirements.

These forms have been designed and developed by Daniel Alexander Films. For more help or information, please email [info@danielalexanderfilms.com](mailto:info@danielalexanderfilms.com)
